

ABOUT ME

KIRAN R

I was born in the lands of the Gods, Kerala. So my mother tongue is Malayalam. I can also speak and understand Tamil, Telugu and Hindi, apart from English. I've had the incredible privilege of growing up in the vibrant and culturally rich city of Hyderabad.

SKILLS

My skills would include singing, painting, photography and poetry. During the lockdown, I learnt to recognise the birds in my neighbourhood with just their sounds. Coming to my technical skills, I'm good at C, HTML, CSS, JS and am enthusiastically learning bash and python!

EDUCATION

I studied in Defence Labs' School, Hyderabad. Then I did my "JEE" coaching in FIITJEE (PS I'm from UGEE) And now I'm here, in IIIT-H (Yay!) I got into the most famous branch of IIIT-H, yeah, CND! I wouldn't say it's easy, but it's fun for sure (well most of the times).
